

## DEPARTMENT OF FISHERY SCIENCE

Report on  
Certificate Course In "Aquarium fish keeping and management"  
(Academic Year 2019-20)

**Introduction:**

The course was designed during academic year 2017-18 with the aim to create expertise in the aquarium fish industry. The course was continuing for the academic year 2019-20. The course focuses on different aspects of the ornamental fish industry. The course will empower participant to identify different valuable aquarium fish and plant species, to carry out breeding and seed production of different ornamental fish and plant species, aquarium feed preparation and management, setting of aquarium tanks, care and maintenance of aquarium tanks, etc.

This will open ocean of opportunities for the participant to earn sustainable income and explore the new avenues of the ornamental fish sector including export of the ornamental fishes. Moreover, highly valued and endangered local species can also be conserved by application of the technical knowhow gained through this course.

**Course Duration:** 45 Teaching Hours
